"STRANGER DANGER"

Dear Parents

I have been made aware of a matter that I would like to bring to your attention. There has been a recent report at a local school that is regarded as suspicious.

A man was seen last Thursday in the area around Deli Park, driving a silver Ford Focus. He had a child with him in a school uniform, who was handing out lollies to other children to lure them into their car.

The police have been informed.

Please be aware of this matter especially if your child travels by bus or walks home. It would be advisable that students walk together in groups or parents/carers meet students at bus stops.

Please discuss with your child the importance of Stranger Danger. Students child need to be alert, should always walk with a friend and always look out for one another.

Yours sincerely
